

HOME HEALTH

When patients are in need of infrequent medical assistance, Integrated Healthcare Services, can help. Intermittent care enables the patient to receive the highest quality of healthcare only when assistance is needed, eliminating the cost of full-time, around-the-clock health care.

Many times, a caregiver may need to leave their loved one at home, but feel uncomfortable leaving them alone without a certified medical caregiver. Our knowledgeable staff conducts in-depth interviews with the patient and family to determine the level of care needed, enabling the patient to receive the care they need from the comfort of their home.

Integrated Healthcare Services, helps provides continuous and hourly care, is proud to offer a dedicated division that specializes in skilled and unskilled visits in the home.

OUR PROGRAMS INCLUDE:

REHABILITATION

Integrated Healthcare Services, contracted therapists provide treatment and instruction on home safety, balance, orthopedic, and neuro-rehabilitation, with a focus on returning to independence. Our therapists develop specific home rehabilitation programs to meet the needs of each individual client.

PHYSICAL THERAPY

Integrated Healthcare Services, contracted Physical Therapists assess and provide treatment to help patients of all ages increase mobility, strength, balance, and coordination. Therapists also work with family and community resources to maximize the patient's rehabilitation process.

OCCUPATIONAL THERAPY

Integrated Healthcare Services, contracted Occupational Therapists assess and treat patients in order to increase their self-help and homemaking skills.

SPEECH-LANGUAGE THERAPY

Speech-Language Therapists help patients develop their language and speech skills to regain control and increase their communication. Therapists also teach patients and family members safe and appropriate swallowing techniques.
